

Shell Service Station in Doral, works for a brighter future with Airis LED

Shell Service Station in Doral, has upgraded to LEDs with the longest lifespan and industry-leading efficiency, with zero replacement costs.

MIAMI - Jan. 29, 2020 - [PRLog](#) -- Airis Energy Solutions, the creators of Airis LED with the longest lifespan, and highest industry-leading efficiency is pleased to announce that Shell Service Station located in Doral, Florida, has upgraded to the energy-efficient Airis LED Lights in the exterior of their service station.

Airis LED Lights have the longest lifespan, industry-leading efficiency and zero replacement costs. The Company offers business owners the opportunity to convert to LED Lighting with zero investment and payments based on a portion of their electricity savings. This allows all types of businesses to enjoy quality LED Lighting with no effect on their cash flow, be Osha Standards compliant, improve the quality of their lighting while reducing their carbon footprint. In sum, working for a brighter future.

With the upgrade, Shell Service Station at 8701 NW 13th ST in Doral, improved their lighting levels by 300% while reducing energy use by more than 55%.

Tom van Daalen of Airis Energy Solutions stated, "Shell Service Station is a well-known station that provides quality products in Doral. Due to their type of business, it is important to ensure their outdoor area is illuminated with high quality LED lighting, affecting clients' moods positively and improving their presentation. Airis LED lights provide these benefits in addition to the energy savings with the cost reductions that result from LED.

It is an honor for us to have had Shell Service Station choose us to consciously work towards a brighter future with our Airis LED lights.
